

REGATTA SECTIONAL

Regatta emerged from a self-imposed design assignment to explore the concept of the sectional seating system.

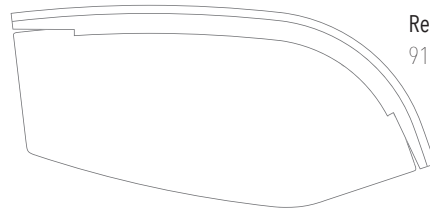

This collection of curvaceous forms comes together to create infinite and scalable configurations suitable for almost any setting. Each piece has a gentle arc along its back that aligns with others to create a grand embracing arc. These arcs combine with tighter bends to provide a continuous welcoming flow at every turn. The backs align to form an aperture keeping the group open and dynamic from all perspectives.

Float them individually or link them together into a flotilla of comfort.
