

HALO PEDESTAL DINING TABLE

Named for the scored detail that encircles its lower columnar base, the Halo Pedestal Table offers a sense of smooth geometry and clean contrast.

The namesake halo divides the pedestal into two distinct finishes, giving the illusion of light and shadow, while enhancing the table's centered form. A circular tabletop with a sloped underbevel sits upon a tapered pedestal.

The all solid wood Halo Pedestal Table offers elegance and a refined presence when viewed from any angle.

Handcrafted in Texas.
